Name: Please put Last name (Lastname, Firstname)___Eng, Chris _____

Practice Exercise 3   Posted First week of school
Due Monday September 12, 2022 @ 11:59pm   Assignment box PE03

Part 1

Using relational structure notation, please transpose the E-R diagram below - **Create the Relational Schema**.

Part1 Write the Relational Schema

A(2, 3, 4, 5, 6, 8)

Convert Part 1 Relational Schema into a MySQL table.   You can assume every attribute/field is an INT UNSIGNED NOT Null.

DROP DATABASE IF EXISTS part1;

CREATE DATABASE part1;

USE part1;

CREATE TABLE A(2 INT UNSIGNED NOT Null PRIMAY KEY, 3 INT UNSIGNED NOT Null PRIMAY KEY, 4 INT UNSIGNED NOT Null, 5 INT UNSIGNED NOT Null, , 6 INT UNSIGNED NOT Null, 8 INT UNSIGNED NOT Null);

Part 2

For each relation below, state whether or not the relation is in 1NF. If the relation is not in 1NF, please list the characteristic(s) being violated.

A(1, 2, 3, 4, 5, 6, 6, 7)

**Your Answer:** NOT NF due to 6 being seen in multiple rows

B(1, 2, 3, 4)

Your Answer: NOT NF no primary key

C(1, 2, 3, 4, 5, 6, 7, 8)

Your Answer: is NF

For this exercise, consider the following:

E-R Diagram	UML Diagram

1. Write and execute an SQL CREATE statement to create a database named PE3. Write the statement below.

   _____CREATE DATABASE PE3;_____

2. Write script and run the script to CREATE the Automobile table in your PE3 database. Set the VIN attribute as the Primary key and Make sure it is AUTO_INCREMENT.

   Make sure the "—verbose" option is turned on. Next, create a "tee" file.

   MySQL> tee pe03.txt
   CREATE TABLE automobile(vin Int(4) UNSIGNED ZEROFILL NOT NULL AUTO_INCREMENT PRIMARY KEY, make char(15), model char(15), year char(4), color char(15), style char(15), MSRP DECIMAL(7,2));

I **always** want many comments in your TEE and Script file. Please add the following SQL comments into the top of your TEE file and your SQL file

-- Your name (Lastname, Firstname)
-- Database Homework

-- What Semester
-- Section ISTE230
-- PE#03 Due Monday …..

- ✓ Write and execute a script that contains 5 INSERT statements to insert the with the data from PAGE 3 of this Practice Exercise #3
- ✓ Write 2 SELECT statements. One that will display all the records in the table Automobile HORIZONTALLY, and a second SELECT statement that will display all the records VERTICALY!
- ✓ Write and execute a statement like the following
  DESCRIBE Automobile;
- ✓ Notee -- close your tee file.
- ✓ Upload **BOTH** your .sql file AND your tee file to this PE assignment box.

The vin column is set to **AUTO_INCREMENT**

Make Up to 15 char	Model Up to 15 char	Year 4 char	Color Up to 15 char	Style Up to 15 char	MSRP Double or DEC WHAT would DEC look like	VIN Int(4) UNSIGNED ZEROFILL NOT NULL AUTO_INCREMENT
Chevy	Volt	2017	White	Hybrid	39290.99	0001
Ford	Mustang	2019	Blue	Convertible	47900.99	0002
Toyota	Prius	2018	Silver	Hybrid	25000.99	0003
Toyota	Camry	2008	Blue	Sedan	2000.50	0004
Dodge	1500	2007	Green	Pickup	1799.99	0005
